Procedure

Provincial Associations are to:

- Nominate to Canada Soccer, by July 1st each year, those who have demonstrated outstanding ability as a Provincial referee and are judged worthy of consideration for advancement to the National List.
- Provide the Committee with a résumé of the referee's career to date of nomination together with a supporting recommendation from the Provincial RDC.
- Confirm that the referee has met the minimum officiating requirements in the previous season.
- Provide the Committee with copies of the assessments as detailed in the criteria above.
- Arrange a fitness test to be held in August of the year of nomination, and provide the Committee with the results of that test, on the appropriate form, by no later than September 2nd. This test may only be supervised by a National List Fitness Instructor, a member of Canada Soccer's Referee Committee, Canada Soccer Staff member or an individual appointed/approved by Canada Soccer. Provincial Associations must contact Canada Soccer at least six (6) weeks in advance of the proposed test date to ensure that a suitable supervisor is appointed and to give adequate notice to both the officials and those involved in organizing the test.
- Confirm the availability of the nominated official to attend both the Club National Championships and Collegiate National Championships in the year of nomination.
- Provincial Associations may nominate National List Assistant Referees for consideration to the National List of Referees at this time, provided they meet the minimum officiating and assessment requirements as a referee. For such nominations, the Provincial Association is required to provide reasons, by April 1st of the year of nomination, why the individual should be considered for a move from the Assistant Referee List to the Referee List.

Process

Canada Soccer's Referee Committee will, upon receipt of the nominations, consider the recommendations of the Provincial Associations. Match officials who have successfully completed all the requirements for nomination, subject to selection by the Committee, will be required to attend a National Club Championship in that year, as appointed by Canada Soccer. At this tournament match officials will be required to referee and/or act as assistant referee and/or act as a fourth official where they will be assessed by National List assessors, and members of the Referee Committee will observe their performance. Those that meet the required standards will be appointed to a Collegiate National Championship where they will again be assessed by National List assessors and members of the Referee Committee will observe their performance. They will also receive education sessions during the tournaments and may be required to attend an interview to ascertain their suitability to be promoted to the National List.

Following this process the most suitable referees will be invited to join the National List of Match Officials (either as Referee or as Assistant Referee), subject to meeting the criteria in force in respect of the National List of Officials, as determined by the Association from time to time.

National List Match Officials

Where the Committee, at the review of performance, identify that a national list match official is not consistently meeting the performance standards expected for that level, the official may be invited to attend a Tournament. His or her performance will be assessed by National assessors over a number of days, to determine whether he or she still meets the requirements for the National List. The match official will have been apprised of his or her developmental areas and appropriate steps will be taken to provide advice and education to support the individual. Where a referee is removed from the National List he or she will be classified as Provincial referee for the following season, subject to meeting the criteria in force for Provincial officials at that time. The referee may be re-nominated to the National List by the Provincial Association after one season as a Provincial official provided that the criteria for nomination is met.
