Small-sided fields can be separate or placed on an 11v11 pitch. The following provides some options for placing small-sided fields on an 11v11 pitch. These options are not exhaustive, and other placements are possible while remaining in compliance with the required pitch dimensions. The realism of the diagrams is dependent on the dimensions of both the 11v11 pitch and small-sided fields.

Les terrains à format réduit peuvent être aménagés séparément ou tracés sur un terrain 11v11. Voici quelques options pour l'aménagement de terrains à format réduit sur un terrain 11v11. Ces options ne sont pas exhaustives, et d'autres configurations sont possibles tant qu'elles respectent les dimensions requises. Le réalisme des schémas dépend des dimensions du terrain 11v11 et de celles des terrains à format réduit.
